Larry:

Here is information on OC inspectors. Bottom line is we could assist regions in doing 4 to 6 inspections in the second half of FY2019 in air, RCRA or water. Doing more would require adjustments to workload.

Here are the details:

OC has 10 currently credentialed inspectors in total.

- 4 are GLP TSCA/FIFRA inspectors, who would need training to do inspections other media programs, but GLP is short on coverage already.
- 1 is a SDWA-PWS inspector and is on detail to the front office as the special assistant.
- For air, wastewater and RCRA:
 - 3 are CAA stationary source inspectors, one of which is exclusive to wood heaters.
 - 1 is a CWA NPDES inspector, focused on stormwater.
 - 1 is a RCRA inspector.
 - These CWA NPDES, RCRA and CAA stationary source inspectors do not have a lot of experience conducting inspections. If the regions needed a second inspector to help on an inspection, this would be a good training activity for these inspectors, and hopefully helpful to the regions.
- In the early days of OC, we had a lot of experienced inspectors, but not today.
